FEATURES & SPECIFICATIONS

CONSTRUCTION — Injection-molded, engineering-grace, V-0 flame retardant, high-impact, thermoplastic in white or black finish.

ELECTRICAL SYSTEM — Dual 120V/277V voltage. Charge rate/power "ON" LED indicator light and push-to-test switch for mandated code compliance testing. LVD (low voltage disconnect) prevents battery from deep discharge. Long-life, maintenance-free, rechargeable NiCd battery (B Model). Internal solid-state transfer switch automatically connects the internal battery to LED board for minimum 90-minute emergency illumination. Fully automatic solid-state, two-rate charger initiates battery charging to recharge a discharged battery in 24 hours.

MOUNTING — Universal surface mount, wall or ceiling, with EZ-snap thermoplastic mounting canopy, which snaps into place making installation quick & easy. Includes flat back for single face mounting or two exit signs for double face mounting.

ILLUMINATION — Ultra-bright, energy efficient, long-life Red or Green LED. Offers 11W of remote capability.

WARRANTY — Five Year Warranty on all electronics and housing. Batteries are pro-rated warranted for 5 years.

ORDERING INFORMATION

Choose the bold face options for the appropriate luminaire configuration for your application and enter on the line above each fixture attribute. Accessories may be factory installed, depending on the particular accessory chosen, but still be ordered as a separate line item.
