FEATURES & SPECIFICATIONS

APPLICATION — Techlight's line of low bays was designed for light manufacturing, warehouse, retail, assembly lines, or production environments. The acrylic drop reduces shadows and provides a wide uniform distribution.

CONSTRUCTION — Heavy duty die cast aluminum housing with a white polyester powdercoat finish. Spun aluminum reflector and collar assembly. ETL and CETL Listed.

FINISH — A Super Durable Polyester powder coat finish is electrostatically applied in our state of the art paint facility. Standard colors available: White. Custom colors¹ available upon request.

OPTICAL SYSTEM — The aluminum reflector focuses light downward on working surfaces. The drop lens spreads the downward light evenly in a wide symmetric pattern. Designed for mid to low range mounting heights.

ELECTRICAL SYSTEM — Available in 150W thru 400W standard metal halide, pulse-start metal halide, and high pressure sodium. Comes standard with a 4KV pulse rated mogul base socket. Each 60HZ CWA multi-tap² or 480V ballast is pre-wired and installed for convenience.

MOUNTING — Splice box for direct hard wire, hook, cord, and plug assembly, or pendant mount.
