OMNI

Durable low voltage steel puck lights in three finishes emit 2700K Warm White LED light with an 85 CRI.

Performance

- Warm White LEDs (2700K) use only 3.2 watts, saving 85% versus conventional 20 watt incandescent puck lights
- Each puck delivers over 140 lumens over twice as bright as xenon puck lights
- Dimmable with 15-100% light control (puck quantity and dimmer type depend upon driver used)
- Kits include a dimming driver (PS-12-12VPI with connection block instead of terminal block) and three pucks

Construction

- Zinc alloy LED housing with aluminum heat sink
- Stamped steel surface collar with Nickel or powder coat painted finish for White and Black
- Spring steel clips secure housing into surface collar with a snap-fit, and retain recessed pucks securely in place
- Polycarbonate lens diffuses light

Installation

- Multiple pucks may be powered by a 12V DC power supply using parallel wiring (hub system)
- 78" lead wires easily route to power supply location
- Surface mount or recess mount (2-1/4" cut-out)
- Kits are designed for plug-in installations, controlled by rocker switch on power cord; hardwired installations are controlled by wall switch or dimmer (see driver details for more information)

^{*}Per the NEC, switched wall outlets cannot be used with wall dimmers

Building a System

Determine Layout:

Determine quantities of fixtures needed and installation type:

- 1. Hardwire
- 2. Plug-in

Select Power Input Accessories:

 Hardwire: Use LED-DR30-12, ELV driver or modify PS-12-12VPI
Plug-in: Use PS-12-12VPI-T for each group of less than three. Order kits, which have the plugin driver included, for groups of three.

Select Linking Accessories:

N/A, parallel wiring uses hub system

Omni Pucks

OMNI-1-BK Omni Puck - Black 3.2W / 140Lm

OMNI-1-NK Omni Puck - Nickel 3.2W / 145Lm

OMNI-1-WH Omni Puck - White 3.2W / 150Lm

Individual Omni pucks include 78" lead wire and mounting hardware

Omni Kits

OMNI-3KIT-BK

OMNI-3KIT-NK

OMNI-3KIT-WH

3-Puck Kit - Black

3-Puck Kit - Nickel

3-Puck Kit - White

Each kit includes one 12V plug-in dimmable driver, three pucks each with 78" lead and mounting hardware

Omni Accessories

PS-12-12VPI-T (Black)

Class 2 dimmable* plug-in driver 6ft power cord with rocker switch, 6ft lead with terminal block, c/ETL/us Listed for dry locations

LED-DR30-12

12V DC Class 2 hardwire power supply 100-240V AC input, 1-30 watts 6-1/4"L x 1-1/4" H x 1-3/4"W c/UR/us Recognized for dry locations Can be used with AL-PWM-6A dimmer which consumes 3 watts

ELV-30-12 (30W** driver) **ELV-45-12** (45W[†] driver)

Class 2 dimmable hardwire driver 120V input

Note: Dimming function consumes some power internally

- *PS-12-12VPI-T and the 12V plug-in LED driver included with 3-disc kits only support 2 or 3 discs in dimming applications (use standard incandescent dimmers for 15-100% light control). This driver can be modified for hardwire applications by replacing the power cord with supply leads. For non-dimming applications, 1-3 pucks can be attached.
- **ELV-30-12 supports 6 8 discs in dimming applications (15-100% light control) using most standard incandescent, reverse phase and electronic low voltage dimmers. For non-dimming applications, 1-9 pucks can be attached.
- TELV-45-12 supports 9 13 discs in dimming applications (15-100% light control) using most standard incandescent, reverse phase and electronic low voltage dimmers. For non-dimming applications, 1-14 pucks can be attached.
