

INNER SQUARE STEP LIGHT

With a built-in wiring compartment, there is no need for a rough-in box. Easy to install with 120V supply wiring, this sleek recessed step light provides a no-glare, modern look.

Performance

- Mini stair-step grooves bounce light into the space while the white acrylic lens softens and diffuses the LED light
- Fifteen Warm White LEDs with 85+ CRI create pools of incandescent-like light without shadows or cutoffs
- Three finishes available

Construction

- Galvanized steel junction box attached to die-cast aluminum faceplate with steel spring clips
- Removable j-box cover plate opens to spacious wiring compartment with built-in knockouts and built-in strain relief side clamps
- Suitable for dry or damp locations

Installation

- Recess mount to drywall via 2-3/8"W x 2-5/8"H cut-out
- Install multiples to single branch circuit by pulling 'loops' of 120V supply wire to step light locations
- Steel spring clips secure faceplate against wall

Specifications

Series	SQ-1
Input voltage	120V, 60Hz AC
Color temperature	3000K
CRI	85+
Wattage	1.0W
Lumens	60Lm
Beam angle	110°
Dimming	N/A
Housing	Built-in galvanized junction box
Lens	White acrylic
Rating	c/ETL/us Listed, damp, IC rated
Dimensions	3"W x 3-1/16"H x 1/8"D faceplate
Switching	Branch circuit
Mounting	Recessed, 2-3/8" x 2-5/8" cut-out
LED type	15 x 2835 SMD LEDs
Rated life	30,000 hrs
