

1. Unscrew Cap and install lamp as shown in Lamp Installation instructions below.
2. RXD Directional lights are supplied with the mounting stakes pre-installed for quick installation. Mounting stakes can be pressed or hammered into ground with a standard hammer or rubber mallet. We recommend our Focus FT-01 Stake Installation Tool which protects the stake and fixture from damage during installation into hard ground. Always leave top 1" section of the stake above ground to help isolate the metal from potentially corrosive soils.
3. Connect 18/2 lead wire from fixture to main supply cable. We recommend using our FA-05 Quick Connector (sold separately) or UL approved direct burial gel filled wire connectors.
4. To adjust fixture aiming angle, loosen swivel screw using #2 Phillips screw driver. DO NOT remove screw completely. Hold fixture at selected angle and tighten swivel screw firmly.
5. Turn on power supply to the fixture and check for proper connection and operation.

LAMP INSTALLATION / REPLACEMENT

Turn off power before installing or servicing fixtures.

CAUTION: Do not exceed maximum wattage marked on fixture label.

To re-lamp **RXD-08**, unscrew lens cap counter clockwise. Pinch lamp retaining ring together to release MR16 lamp. Carefully remove MR16 Bi-Pin lamp. Check label inside for correct MR16 Bi-Pin lamp and wattage. Insert/press new MR16 Bi-Pin lamp into socket. Insert lamp retaining ring back into its groove to secure lamp in place. Screw lens cap back onto fixture. This fixture is rated to 20 watts max.

To re-lamp **RXD-09**, unscrew lens cap counter clockwise. Pinch lamp retaining ring together to release MR11 lamp. Carefully remove MR11 Bi-Pin lamp. Check label inside for correct MR11 Bi-Pin lamp and wattage. Insert/press new MR11 Bi-Pin lamp into socket. Insert lamp retaining ring back into its groove to secure lamp in place. Screw lens cap back onto fixture. This fixture is rated to 20 watts max.

To re-lamp **RXD-10**, unscrew lens cap counter clockwise. Pinch lamp retaining ring together to release MR8 lamp. Carefully remove MR8 Bi-Pin lamp. Check label inside for correct MR8 Bi-Pin lamp and wattage. Insert/press new MR8 Bi-Pin lamp into socket. Insert lamp retaining ring back into its groove to secure lamp in place. Screw lens cap back onto fixture. This fixture is rated to 20 watts max.
