

# CASCADES Step Light

### DESCRIPTION

This Step Light comes with Lighting Shrink Professional crimp and heat shrink cable connector.

**LAMP:** Integrated into fixture with two brightnesses:

1.5W, 110 Lumens, 2700K

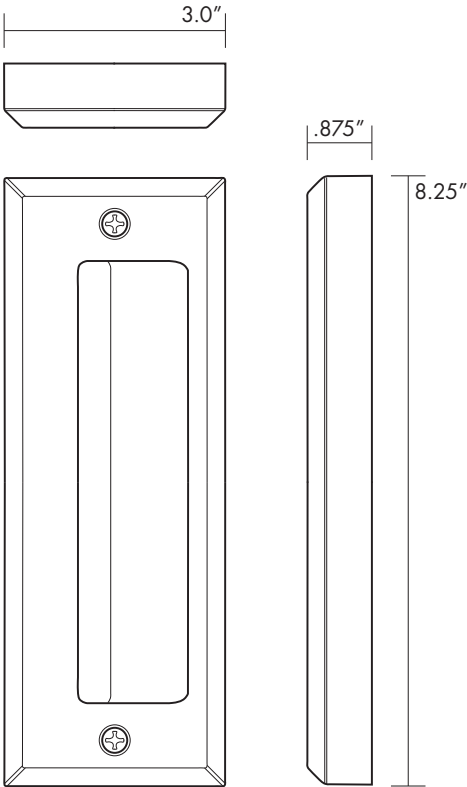

3W, 220 Lumens, 2700K

**FINISH:** Machined aluminum, machined brass

**USE:** Jobs with elevation changes or dark sky requirements, step, deck, or hardscape applications and over most existing recessed step lights

Part Number: **CASCADES SL-7.5LB-AL-BLK**  
**CASCADES SL-DB-7.5LB-AL-BLK**  
**CASCADES SL-7.5LB-BR**  
**CASCADES SL-DB-7.5LB-BR**

### INSTALLING THE FIXTURE

1. Separate the two piece fixture by removing the two machine screws from either side of the body.
2. Install the wall anchors, if mounting in masonry, concrete, or sheetrock.
3. Use the provided cable connectors to connect the lead wires to the transformer main line.
4. Slide the cables into the conduit and mount the back plate onto the wall with the provided screws.
5. Screw the faceplate onto the fixture
